Salina Young Professionals

Please list your qualifications and interest for wanting to serve on a board or commission:

I am interested in serving on the board as I grew up in the area and have been involved in our family business for the past 6 years with rentals in Salina to include our residential/commercial space in the downtown area. Our company has been around for the past 25 years. I property manage our rental company KS4RENT/Richardson Developments and work closely with members in our community that are relocating to Salina for jobs or simply looking for a new place to call home. I enjoy being one of the first contacts many people meet when moving to Salina. I work with many young people like myself that are relocating here & my goal is to get them to plant their roots and stay. I want to make it a fantastic experience for them in Salina, get them plugged into the community and make sure they want to stay & continue adding to our community. I would love to see more and more young people stay in Salina. I also am an agent with Salina Homes and love helping members of our community buy & sell their homes. Along with these roles I also own some rental properties of my own and enjoy investing in our growing city. I am involved with the Salina Young Professionals group and enjoy connecting with likeminded people. I live in the downtown area in a apartment above Blue Sky and think there is no better place to live. I enjoy the luxury of being able to do most things downtown to include shopping, dining, and soon grocery shopping at Prairie Land! There will soon be no reason to leave our beautiful downtown for anything. I look forward to the opportunity to serve on the BID board and connect with likeminded people in our community.

Christi Nuding – Salina, KS

Please list your qualifications and interest for wanting to serve on a board or commission:

As an employee of a downtown business, I feel I would be a great addition to this board. We are involved in many local downtown events, and I'd like to have a voice in what is happening. Community growth and inclusiveness are very important to me.

As I now work downtown, and my significant other has been working downtown for some time, we have seen the beautiful changes and upgrades to the services offered. We have many kids and have found that there are plenty of ideas that flourish in our house, and I would love the opportunity to share those with like-minded people who feel revitalizing the downtown area can only help the entire city.
